#### LETTER OF TRANSMITTAL

December 7, 2022

The Honorable Mayor Dan Terbrack Members of the City Council And Citizens of the City of Berkley

We are pleased to submit the Annual Comprehensive Financial Report (ACFR) of the City of Berkley for the fiscal year ending June 30, 2022.

This report is prepared for the purpose of disclosing the City's financial condition to residents, elected officials and other interested parties. The financial statements contain all disclosures necessary to enable the reader to gain an understanding of the City's financial activities and condition. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including disclosures belongs to the City exclusively. We believe that the information presented is accurate in all material aspects, that it is presented in a manner designated to fairly set forth the financial position and results of operation of the City, and that all disclosures necessary to enable the reader to gain the best understanding of the City's financial affairs have been included.

Generally Accepted Accounting Principles (GAAP) require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the detailed MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

All local units of governments within the State of Michigan must comply with the Uniform Budgeting and Accounting Act, Public Act 2 of 1968 as amended, which requires an annual audit of the financial records and transactions of the City by independent certified public accountants. Chapter 9.8 of the Berkley City Charter also references Public Act 2 of 1968 and requires an independent audit of the City's financial records and transactions. The primary purpose of the auditing requirements of this act is to maintain the confidence of all interested parties as to the integrity of the record keeping and financial reporting of

local unit of government such as the City of Berkley.

#### Profile of the Local Government

The City of Berkley became a City in May 1932. Berkley is located in Oakland County, Michigan and encompasses an area of approximately 2.6 square miles and has approximately 15,000 residents. The City is a mature community located eleven miles northwest of downtown Detroit and is directly within the historical Woodward corridor.

The City operates under a Council-Manager form of government. The Mayor is elected to a two-year term and six council members are elected for four-year overlapping terms. The City Council appoints the City Manager, and the City Attorney. Both serve at the pleasure of the City Council. All other department heads are appointed by the City Manager. The City Manager directs all city operations, projects and programs.

The City provides a full range of municipal services including police and fire through a public safety department; public services, parks, recreational programming for adults, children and seniors, and cultural services at the City library. Building inspection, code enforcement and planning and development are also provided by the City. In addition to general government services, the activities of the Downtown Development Authority are reported as a discretely presented component unit of the City.

The city of Berkley prepares budgets in accordance with the State of Michigan Uniform Budgeting and Accounting Act, PA 2 of 1968 as amended. Under the direction of the City Manager, the Finance Director prepares an initial projection of revenue for the next fiscal year. Spending priorities are then determined upon the City's financial policies, priorities and mandated requirements of the federal and state governments. Activities of the General Fund/District Court, Special Revenue Funds, Debt and Construction Funds along with the Downtown Development Authority and the Public Safety Pension System are all appropriated annually by the Berkley City Council. The level of budgetary control (that is the level at which expenditures cannot exceed the appropriated amount) is established by department. It takes a four-vote majority to adopt and amend the annual appropriations document.

#### **Factors Affecting Financial Condition**

**City Operation** - Fitch's rating service, which provides credit rating and other financial analysis, confirms the City of Berkley's high-quality rating on general obligation bonds as AA with a stable outlook in its most recent report dated February 6, 2017. The report states, "The City has solid flexibility to reduce main expenditure items, and carrying costs for debt service, pension and other post-employment benefits (OPEB) are moderate. The long-term liability burden for the debt and pension is low relative to the city's resource base. The City maintains healthy reserve balances driven by positive operating results."

According to Fitch's rating service, the city has seen a post-recession increase in taxable value reflecting a solid economic recovery. They expect revenues to grow at the rate of inflation based on the city's growth in residential development. The City maintained very stable operations throughout the most recent economic recession and its recovery with ample safety

margins. Management has been proactive in maintaining strong financial resilience given the City's small budget and limited ability to independently increase revenues.

**Local Economy** - Wealth levels within the City of Berkley remain above state and national averages. The median household income in Berkley is just over \$93,038 per incomebyzipcode.com. The per capita income is \$47,840. The median home value in October 2022 according to zillow.com is \$291,532; the median gross rents are \$1,750/month. The average taxable value in the City as determined by the City Finance Department is \$88,700. Per the 2010 census, there are just over 6,400 single family homes and another 624 multi-unit residences. Within this amount 5,363 were owner occupied and another 1,231 are rented.

The Southeast Michigan Council of Governments is also forecasting that the City of Berkley will maintain a level population of approximately 15,000 people through 2045. As of 2020, the population of the City of Berkley is estimated at 15,513. As of 9/30/2022, the unemployment level within the City according to the Bureau of Labor Statistics is 3.5% which is under the State unemployment rate of 4.2%.

The City and surrounding area have a very diverse business community that employs residents in the region. Specifically, the City of Berkley, Westborn Market, Green Lantern restaurant, Crispelli's restaurant, the Berkley School District, and satellite medical services from Beaumont Hospital are large local employers. Regionally, the main campus of Beaumont Hospital is just outside the City limit.

Each year, the Headlee rollback combined with the Proposal "A" individual property owner restriction of rate increases, keeps the tax revenue increase at or below the rate of inflation. That rate has hovered near 2% every year, but is expected to be higher in 2023.

In August 2012, the City was able to pass through a vote of the people a Headlee tax override of \$3.00 per thousand taxable value on all real and personal property in the City to offset the tax base loss and to achieve revenue flexibility. The tax override went into effect on the 7/1/2013 property tax billing. This additional tax levy added \$1.7 million for City operation net of tax increment capture for FY 2021/22. It is anticipated that State Shared Revenues will increase slightly in 2022/2023. Future revenues should remain steady or increase at a very slow rate.

The City has paid all outstanding bond debt other than the business type activities debt. The only outstanding debt amounts are all obligations with Oakland County related to improvements with the George W Kuhn Drain.

**Employee Pensions and Other Post-Employment Benefits** - The City has two pension systems. The Public Safety Officers have their pension benefits overseen by a board appointed by the Mayor and approved by City Council along with union membership representation and the City Finance Director. All other employees participate in the Municipal Employee Retirement System (MERS). Internally, the City Finance Department administers the pension benefits of the public safety officers with Board oversite. MERS administers the pension benefits of all other eligible employees. The Finance Department coordinates all pension issues with MERS locally. The City's annual required contribution is determined by an independent actuary engaged by the Board for the public safety officers and MERS for all other eligible employees. The City of Berkley fully funds the annual required contribution recommended by the actuary for pensions. To reduce future pension liabilities, the City has now closed all MERS non-union and public works employee pension divisions from new hires effective January 1, 2022. New hires now receive a Defined Contribution Retirement Plan administered by MERS. All non-union and new hires at Public Works must contribute towards their DC and pension benefit. All public safety, non-union and public works employees hired on or after 7/1/2005 or 7/1/2008 no longer receive a defined benefit health care plan at retirement. The City requires contributions to a third-party administrator and matches contributions as defined by contract or policy.

**Internal Controls and Other Internal Factors-**The City continues to review and examine internal controls on a regular basis. Our Chief Innovation Officer performs routine checks of file protection and employee separation of critical duties. He also spends time on protecting crucial data and separating accounting input and financial transaction duties. These are important internal controls that the city takes very seriously. Automated Clearing House (ACH) and banking transaction controls are separated from the set-up of vendor templates for these transactions. Approval of those financial functions is then completed by another employee. Internal controls can be challenging in a small office environment, but the city will continue to protect data and finances with regular reviews of internal controls and make improvements wherever necessary.

**Awards** - The Government Finance Officers Association (GFOA) has awarded to the City of Berkley a certificate of excellence in financial reporting from GFOA for its first Annual Comprehensive Financial Report that was provided to the leadership and citizens of the City for the last nine fiscal years.

This Annual Comprehensive Financial Report was made possible by the efficient and dedicated service of many individuals. We wish to express our sincere appreciation to each of them. Special thanks go to our dedicated staff accountants, Laurie Fielder and Susan Reddin. Thanks also to Deputy Treasurer, Bryan Bemis and cashier Phyllis Brown. Thank you to our independent auditors PSLZ, PLLC who provided guidance and assistance in putting this document together. Finally, we would like to also express our appreciation to the Mayor and City Council for their guidance and leadership in the financial matters of the City.

Sincerely,

Matthew Baumfarten

Independent Auditor's Report

To the Honorable Mayor and City Council The City of Berkley, Michigan

#### Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Berkley, Michigan, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate of all remaining fund information of the City of Berkley, Michigan, as of June 30, 2022, and the respective changes in its financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Telephone: (734) 453-8770 Fax: (734) 453-0312 In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, amount other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplemental information, as identified in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplemental Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Berkley's basic financial statements. The other supplemental information, as identified in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to underlying accounting and other records used to prepare the basic financial statements or the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplemental information, as identified in the table of contents is fairly stated in all material respects in relation to the basic financial statements as a whole.

Honorable Mayor and Members of the City Council City of Berkley, Michigan

#### **Other Information**

Management is responsible for the other information included in the Annual Comprehensive Financial Report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements or whether the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Respectfully,

MShZ Mic

PSLZ PLLC Certified Public Accountants

#### Management's Discussion and Analysis

As management of the City of Berkley, Michigan, we offer readers this narrative overview and analysis of the financial activities of the City of Berkley for the fiscal year ended June 30, 2022.

#### Financial Highlights

- COVID-19 is still impacting revenue; however, building department and parks and recreation department revenue recovered significantly later in the fiscal year. COVID-19 affected all areas of operation, but seems to be easing in impact.
- Taxable property tax values increased (4.88 percent or \$31.05 million) for the July 1, 2021 tax collection season that funds fiscal year 2021-2022; however, this is offset by a Headlee reduction factor to many of the City's millage rates. This is the eighth straight year that the City has experienced an overall increase in its taxable value. Last fiscal year, taxable values increased 5.1 percent, or approximately \$31.4 million.
- Constitutional and city, village, and township (CVT) revenue-sharing payments, the City's second largest revenue source, increased by \$148,875, or 10.2 percent, in fiscal year 2021-2022, as compared to fiscal year 2020-2021.
- To offset lost revenue and increase infrastructure investments, the City sought a \$3.00 per thousand Headlee tax override. This levy was overwhelmingly passed with almost 70 percent of the voters approving the Headlee property tax override in August 2012. This levy went into effect on July 1, 2013. The levy was rolled back to \$2.6002 per thousand tax value for the July 2021 tax levy in accordance with the State's Headlee amendment. This tax levy generated approximately \$1.699 million (net of tax increment finance capture) for fiscal year 2021-2022.
- The City continued to maintain the structural integrity of its water mains and sewer system by investing approximately \$1,635,000 water and sewer improvements in fiscal year 2021-2022.
- The City also continued to invest in its general infrastructure with over \$2 million worth of capital improvements in fiscal year 2021-2022. Improvements included major and local street improvements, department of public works building improvements and police vehicles, and park improvements and major upgrades to the Tot Lot Park.
- For the 22<sup>nd</sup> consecutive year, the City invested in the library collection. The library purchased \$56,400 in new reading and rental materials.
- The City's estimated total other postemployment benefit (OPEB) liability as of June 30, 2022 is \$14,258,100. The City currently has \$6,680,695 of investments held in trust with the Municipal Employees' Retirement System (MERS), which leaves a net unfunded OPEB liability of \$7,577,405, meaning the plan is 46.86 percent funded. The City paid \$717,395 on a pay-as-you-go basis, including an implicit rate study contribution toward the calculated OPEB liability. The City has continued to make a conscious effort to set aside some level of funding for its OPEB liability.

#### Using This Annual Report

This annual report consists of a series of financial statements. The statement of net position and the statement of activities provide information about the activities of the City as a whole and present a longer-term view of the City's finances. This longer-term view uses the accrual basis of accounting so that it can measure the cost of providing services during the current year and whether the taxpayers have funded the full cost of providing government services.

The fund financial statements present a short-term view; they tell the reader how the taxpayers' resources were spent during the year and how much is available for future spending. Fund financial statements also report the City's operations in more detail than the government-wide financial statements by providing information about the City's most significant funds. The fiduciary fund statements provide financial information about activities for which the City acts solely as a trustee or agent for the benefit of those outside of the government.

#### Government-wide Overall Financial Analysis

The following table shows, in a condensed format, the net position as of June 30, 2022 and 2021:

|                                  | Governmen     | tal Activities | Business-typ  | be Activities | Total         |               |  |  |
|----------------------------------|---------------|----------------|---------------|---------------|---------------|---------------|--|--|
|                                  | 2022          | 2021           | 2022          | 2021          | 2022          | 2021          |  |  |
| Current and other assets         | \$ 15,545,217 | \$ 12,888,650  | \$ 4,651,707  | \$ 5,038,767  | \$ 20,196,924 | \$ 17,927,417 |  |  |
| Capital Assets                   | 18,244,394    | 17,716,646     | 20,157,591    | 18,853,640    | 38,401,985    | 36,570,286    |  |  |

| Total Net Position (Deficit)     | \$ 1,934,982  | \$ 2,647,163   | \$ 20,205,413 | \$ 19,134,435 | \$ 22,140,395 | \$ 21,781,598 |  |  |

#### The City's Net Position

The City's combined total net position increased 1.65 percent from a year ago – increasing from \$21.8 million to \$22.1 million. Unrestricted net position of the governmental activities and the business-type activities (the part of net position used to finance day-to-day operations) increased 20 percent at June 30, 2022, from \$(19.7) million to \$(23.6) million. This increase is due to the increased investment in capital assets using unrestricted resources.

The governmental activities unrestricted net position decreased by approximately \$3,142,000. Analyzing this further, this decrease is due to the increases in both net position restricted for public safety and capital assets. On the other hand, the majority of the governmental funds experienced revenue exceeding expenses, which also attributed to an increase in restricted fund balance and net position.

The unrestricted net position for business-type activities saw an increase of approximately \$1,071,000 and the investment in capital assets increased by approximately \$1,800,000.

In reviewing the City's net position of governmental activities, the net investment in capital assets increased approximately \$528,000 due to the recognition of approximately \$1.5 million in

depreciation expense in 2022 that was partially offset by asset additions of approximately \$2.0 million net of sales and write-offs.

The following table shows the changes in net position during the years ended June 30, 2022 and 2021:

#### The City's Changes in Net Position

|                             |      | Governmental Activities |      |            |    | Business-typ | be / | Activities | Total         |               |  |  |

#### **Governmental Activities**

Overall, the net position for governmental activities decreased by approximately \$700,000 in fiscal year 2021-2022 as compared to an increase of approximately \$2.6 million in fiscal year 2020-2021. This is due to the expenses that exceeded the revenues. In the prior fiscal year, the City received more than \$800,000 in Coronavirus Relief Fund awards. In the 2021-2022 fiscal year the City received \$1.6 million in ARPA funds that are posted as deferred revenues until those funds are properly spent. The net OPEB liability decreased by \$3,103,596, and the Public Safety net pension liability increased \$4,765,196. General government expenses increased as a result of increased pension and health care costs.

#### **Business-type Activities**

The City's business-type activities include water and sewer enterprise operations. The City provides water and sewer services to residents through contracts or consortiums with the Great Lakes Water Authority and the Southeastern Oakland County Water Authority. Total net position

for all business-type activities increased approximately \$1.07 million in fiscal year 2021-2022. The City waived penalties up until January 2021 to help struggling families during COVID-19. Charges for services increased slightly. On the expenditure side of the ledger there was a decrease in capital equipment purchases due to supply chain issues and delays in deliveries. Capital projects planned for 2021-2022 continued and were completed during the fiscal year.

#### The City of Berkley, Michigan's Funds

The City of Berkley, Michigan's major fund financial statements are on pages 13 through 19, following the statement of net position and statement of activities. The fund financial statements provide detailed information about the most significant funds, not the City as a whole.

The City's major funds for the year ended June 30, 2022 include the General Fund, the Major Streets Fund, and the Local Streets Fund.

The General Fund pays for most of the City's governmental services. The General Fund recorded \$12.5 million in expenditures to provide city service and purchase capital equipment in fiscal year 2021-2022. When adding in operating transfers to other funds, the total General Fund expenditures for the fiscal year were approximately \$13.2 million. The most significant of these costs is public safety (police and fire), which incurred expenses of approximately \$5.8 million within the General Fund. Public safety expenditures were 47 percent of the total operating General Fund expenditures. The City ended the fiscal year with a use of fund balance of approximately \$400,000 which included \$600,000 of capital expenditures spent during the fiscal year. The City received ARPA Federal Grant money during fiscal year 2021-2022 of \$1.63 million which is recorded as unearned revenue at June 30, 2022 as the funds have not been spent as of year-end. Those funds can be used to offset some of the lost revenue incurred during COVID-19 shutdowns and other infrastructure projects approved by the federal government.

Public safety services are partially supported by two special public safety millages, which are recorded in the General Fund. The first millage is for operations, and the second millage is for retirement contribution and legacy costs (PA 345 levy). Revenue generated by these two millage rates was approximately \$2.8 million. During the 2021-2022 fiscal year, expenditures recorded in the General Fund directly related to public safety amounted to approximately \$5.8 million. The remaining cost of the police and fire protection is funded by other general revenue sources of the General Fund.

The City presents the Solid Waste Service Fund amount the nonmajor fund category of the financial statements. The City spent \$1.46 million to collect and dispose of the City's solid waste, recyclables, and leaves in fiscal year 2021-2022. In addition to property taxes collected of approximately \$1,081,000, the fund also recorded approximately \$448,000 in charges for service. As of June 30, 2022, only about \$237,000 remains in the Solid Waste Service Fund fund balance.

The Recreation Revolving Fund recorded approximately \$1.26 million in operating and capital expenses. Recreation program revenue received amounted to approximately \$453,000 and the fund received support of \$515,000 from the General Fund. This resulted in an ending fund balance of \$17,577 as of June 30, 2022 for the Recreation Revolving Fund.

#### **General Fund Budgetary Highlights**

The COVID-19 pandemic eased up some later in the fiscal year and lessened the impact on revenues during the fiscal year. Inflation has begun to have a negative impact on revenues as discretionary income has decreased for most families. During the fiscal year the City amended the capital equipment budget due to supply chain issues and uncertainty of reserves in the long

term. Supply chain issues and the Russian invasion of Ukraine have added to the burden of future revenue projections. When removing the ARPA funds from the revenue amount the original budgeted revenues were \$12.9 million and we ended the year with \$12.5 million in actual revenues. Original budgeted expenditures were \$14.7 million and the actual amount expended was approximately \$13.0 million, This discrepancy was due mostly to cuts in capital equipment and deliveries that have extended into the 2022-2023 fiscal year. The final amended expenditure budget was \$14.8 million.

The General Fund expenditure appropriation adjustment was a decrease of \$1.86 million. The actual revenues versus expenditures of the General Fund amounted to a deficit of over (\$728,000). Although the City received over \$1.6 million in ARPA grant funds, those funds were moved to deferred revenue until they are spent. Some of those funds will be converted into revenue as lost revenues during COVID-19 and will help offset some of the deficit.

#### Capital Assets and Debt Administration

At the end of fiscal year 2022, the City had a net book value of approximately \$38.4 million invested in a broad range of capital assets, including buildings, police and fire equipment, and water and sewer lines. In addition, the City invested significantly in its major and local road system.

Additions to capital assets include the construction in progress on area repairs in various major and local streets throughout the City, new water meters, sidewalks, patrol cars, various public works equipment, a purchase of a home for a later project, and reinvestment in various city facilities. Additional information regarding the City's capital assets and long-term debt can be found in Notes 4 and 6, respectively, within the financial statements.

All bond obligations of the City are business-type debt in the Water and Sewer Fund. Total bond obligations for the Water and Sewer Fund are down approximately \$493,000 from fiscal year 2020-2021 to approximately \$987,000 in the fiscal year ended June 30, 2022.

In January 2017, Fitch Ratings services affirmed the City's bond rating as AA stable for the general obligation road bonds, Series 2006. Fitch Ratings stated, "The city has maintained very stable financial operations throughout the most recent economic recession. Management has been proactive in maintaining strong financial resilience given the city's small budget and limited ability to independently increase revenue. Fitch believes that the City will maintain strong financial resilience based on management's history of conservative budgeting practices and solid expenditure flexibility."

#### Economic Factors and Next Year's Budgets and Rates

The Oakland County Assessor's Office projected a 5.96 percent increase in property taxable value within the City of Berkley, Michigan for the July 2022 tax year (fiscal year 2022-2023). The effects of the Headlee reduction factor reduce the anticipated operating and public safety tax revenue from the taxable value increase of 5.96 percent down to an anticipated increase in property tax revenue net of DDA capture of 4.64 percent.

It is anticipated that the State of Michigan will have a slight increase in state-shared revenue payments to local governments as the State is on solid footing thanks to a one-time influx of Federal funds. This should create increases in state income and sales tax, which make up the components of state-shared revenue payment distribution in fiscal year 2022-2023 from 2021-2022 funding levels.

As stated earlier in this discussion, the City sought and was able to pass, through a vote of the people, a Headlee tax override of \$3.00 per thousand taxable value on all real and personal property in the City. It is anticipated that the City will continue to levy this voter-approved tax increase in fiscal year 2022-2023 and into the future to allow the City to balance all operating budgets and to invest in various infrastructure projects around the City. The levy has been reduced from \$2.6002 per thousand of taxable value to \$2.5552 per thousand of taxable value in fiscal year 2022-2023.

The voters approved a capital improvement millage for road repair and replacement of up to 2 mills in November 2018. This millage was rolled back to Headlee again to 1.8833 for the third levy in 2021. After a delay due to COVID-19 work restrictions, work began in the fall of 2020 on this capital project and continued into 2021. The City continued repair and replacement of the worst condition roads over a 10-year program utilizing this millage and supplementing with Major Streets and Local Streets funds.

On the expenditure side of operations, the City continues to carefully manage resources that are available for operations and improvements. The City evaluates all current operating programs in order to determine if the program provides a quality level of service at a fair cost. The City continues to evaluate revenue to ensure that revenue charged rate payors meets program expenses.

Salaries and fringes continue to be the largest expenditures, making up approximately 70 percent of the General Fund budget. The City will also continue to make investments in its capital structure, such as police vehicles, department of public works equipment, upgrades to parks and park structures, various street repair projects, a sidewalk program, and water and sewer improvements and lining. After carryforward budget amendments, capital is budgeted to be over 12 percent of the General Fund budget.

The City of Berkley is now facing the question that so many of our surrounding communities are facing, or have already faced. Due to repeated Headlee rollbacks of our millage rates, we are no longer able to generate enough tax revenue to continue to properly manage the City on behalf of our residents and taxpayers. City Council will carefully consider a Headlee millage override to be placed on the ballot in May 2023. In the 2022-2023 budget the City had to cut over \$2 million of capital equipment and capital projects in order to try to maintain the fund balance set by policy of a minimum 20% of average annual expenditures. Please look for factual data that will be presented between January and May 2023 on this override millage. Through the use of long-term planning, the City will continue to evaluate and monitor its budgets. Other adjustments will be made to address changes in economic conditions and other events as they present themselves.

#### **Requests for Further Information**

This financial report is designed to provide a general overview of the City of Berkley's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Municipal Offices at 3338 Coolidge Hwy., Berkley, Michigan 48072.

## Note 1 – Significant Accounting Policies

#### **Reporting Entity**

The City of Berkley, Michigan (the "City") is governed by an elected seven-member council. The accompanying financial statements present the City and its component units, entities for which the City is considered to be financially accountable. Although blended component units are legally separate entities, in substance, they are part of the City's operations. The discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City (see discussion below for description).

#### Blended Component Unit

The City's building authority is governed by a three-member board appointed by the City Council. Although it is legally separate from the City, the building authority is reported as if it were part of the primary government because its primary purpose is to acquire, furnish, equip, own, improve, enlarge, operate, and maintain the ice arena and horseshoe pit for the use or benefit of the City. The building authority was inactive during the year ended June 30, 2022.

#### **Discretely Presented Component Units**

#### Downtown Development Authority

The Downtown Development Authority (the "Authority" or the "DDA") was created to correct and prevent deterioration in the downtown district, encourage historical preservation, and promote economic growth within the downtown district. The Authority's governing body, which consists of 10 individuals, is selected by the City Council. In addition, the Authority's budget is subject to approval by the City Council. Financial information can be obtained from the City of Berkley, Michigan at3338 Coolidge, Berkley, MI 48072.

#### Pension and Other Postemployment Benefits Funds

The Public Safety Pension Trust Fund is governed by a five-member board that includes the City's treasurer and two members appointed by the mayor. The Other Postemployment Benefits Fund is governed by City Council. Although they are legally separate from the City, they are reported as fiduciary component units because the City governs the plans or appoints a voting majority to the board and the plans impose a financial burden on the City.

#### Accounting and Reporting Principles

The City follows accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. Accounting and financial reporting pronouncements are promulgated by the Governmental Accounting Standards Board (GASB).

#### **Report Presentation**

Governmental accounting principles require that financial reports include two difference perspectives – the government-wide perspective and the fund-based perspective. The

# Note 1 – Significant Accounting Policies (Continued)

government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on al of the nonfiduciary activities of the primary government and its component units, as applicable. The government-wide financial statements are presented on the economic resources measurement focus and the full accrual basis of accounting. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The statements also present a schedule reconciling these amounts to the modified accrual-based presentation found in the fund-based statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenue includes: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Taxes, unrestricted intergovernmental receipts, and other items not properly included amount program revenue are reported instead as general revenue.

As a general rule, the effect of interfund activity has been removed from the government-wide financial statements. Exceptions to this general rule occur when there are charges between the City's water and sewer function and various other functions. Eliminations of these charges would distort the direct costs and program revenue reported for the various functions concerned.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

## Basis of Accounting

The governmental funds use the current financial resources measurement focus and the modified accrual basis of accounting. This basis of accounting is intended to better demonstrate accountability for how the City has spent its resources.

Expenditures are reported when the goods are received, or the services are rendered. Capital outlays are reported as expenditures (rather than capital assets) because they reduce the ability to spend resources in the future; conversely, employee benefit costs that will be funded in the future (such as pension and retiree health care-related costs or sick and vacation pay) are not counted until they come due for payment. In addition, debt service expenditures, claims, and judgments are recorded only when payment is due.

Revenue is not recognized until it is collected or collected soon enough after the end of the year that it is available to pay for obligations outstanding at the end of the year. For

## Note 1 – Significant Accounting Policies (Continued)

this purpose, the City considers amounts collected within 60 days of year end to be available for recognition. The following major revenue sources meet the availability criterion: state-shared revenue, state gas and weight tax revenue, district court fines, and interest associated with the current fiscal period. Conversely, for certain amounts due from businesses and residents collected after the period of availability, receivables have been recorded for these along with a deferred inflow.

Proprietary funds and fiduciary funds use the economic resources measurement focus and the full accrual basis of accounting. Revenue is recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

## **Fund Accounting**

The City accounts for its various activities in several different funds in order to demonstrate accountability for how it spends certain resources; separate funds allow the City to show the particular expenditures for which specific revenue is used. The various funds are aggregated into three broad fund types:

#### **Governmental Funds**

Governmental funds include all activities that provide general governmental services that are not business-type activities. Governmental funds can include the General Fund, special revenue funds, debt service funds, capital project funds, and permanent funds. The City reports the following funds as major governmental funds:

The General Fund is the primary operating fund because it accounts for all financial resources used to provide government services other than those specifically assigned to another fund.

The Major Streets Fund accounts for the resources of the state gas and weight tax revenue that are restricted for use on the City's major streets.

The Local Streets Fund accounts for resources of the state gas and weight tax revenue that are restricted for use on the City's local streets.

## Proprietary Funds

Proprietary funds include enterprise funds (which provide goods or services to users in exchange for charges or fees) and internal service funds (which provide goods or services to other funds of the City). The City reports the following fund as a major enterprise fund:

The Water and Sewer Fund provides water to customers and disposes of sanitary sewage in exchange for user charges.

# <u>CITY OF BERKLEY</u> <u>Notes to Financial Statements</u> <u>June 30, 2022</u>

## Note 1 – Significant Accounting Policies (Continued)

The City's internal service fund is used to allocate the City's liability for employee compensated absences on a full accrual basis so that the costs are recognized and allocated to the various funds in the year during which the costs are incurred.

#### Fiduciary Funds

Fiduciary funds include amounts held in a fiduciary capacity for others. These amounts are not used to operate the City's programs. Activities that are reported as fiduciary include the following:

The Public Safety Pension Fund accumulates resources for pension benefit payments to qualified public safety employees.

The Other Postemployment Benefits Fund accumulates resources for future retiree health care payments to qualified retirees.

The Property Tax Collections Fund collects taxes on behalf of all the taxing authorities (county, school district, and the various other taxing authorities).

#### Interfund Activity

During the course of operations, the City has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e. the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e. the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Furthermore, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported as gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

# <u>CITY OF BERKLEY</u> <u>Notes to Financial Statements</u> <u>June 30, 2022</u>

# Note 1 – Significant Accounting Policies (Continued)

#### Specific Balances and Transactions

#### Cash and Investments

Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value, except for investments in external investment pools, which are valued at amortized cost. Pooled investment income from all funds is generally allocated to each fund using a weighted average of balance for the principal.

#### Inventories and Prepaid Items

Inventories are valued at cost on a first-in, first-out basis. Inventories are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both government-wide and fund financial statements, when applicable.

#### Capital Assets

Capital assets, which include property, plant, equipment, intangible assets, and infrastructure (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the City as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost, if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

Interest incurred during the construction of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Capital assets are depreciated using the straight-line method over the following useful lives:

|                       | Depreciable Life - |
|-----------------------|--------------------|
| Capital Asset Class   | Years              |
|                       |                    |
| Roads and bridges     | 15-20              |
| Water and Sewer lines | 60-85              |
| Buildings             | 15-50              |
| Building improvements | 7-20               |
| Equipment and books   | 3-15               |
| Vehicles              | 5-10               |
| Land improvements     | 20                 |

# Note 1 – Significant Accounting Policies (Continued)

#### Long-term Obligations

In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund-type statement of net position. Bond premiums and discounts are deferred and amortized over the lives of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed at the time they are incurred. In the fund financial statements, governmental fund types recognize bond issuances and premiums as other financing sources and bond discounts as other financing uses. The debt service funds are generally used to liquidate governmental long-term debt.

## **Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of net position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future periods and will not be recognized as an outflow of resources (expense/expenditure) until then. The City reports deferred outflows related to pensions and OPEB, as detailed in Notes 8 and 9, respectively.

In addition to liabilities, the statement of net position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time. The City reports deferred inflows related to receivables collected beyond the City's period of availability, which are reported only in the governmental funds. The City also reports deferred inflows related to pensions and OPEB, as detailed in Notes 8 and 9, respectively.

#### Net Position

Net position of the City is classified in three components. Net investment in capital assets consists of capital assets net of accumulated depreciation and is reduced by the current balances of any outstanding borrowings used to finance the purchase or construction of those assets. The restricted component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Unrestricted new position is the remaining net position that does not meet the definition of invested in capital or restricted.

## Net Position Flow Assumption

The City will sometimes fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

## Note 1 – Significant Accounting Policies (Continued)

#### Fund Balance Flow Assumptions

The City will sometimes fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Furthermore, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

#### **Fund Balance Policies**

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The City itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the City's highest level of decision-making authority. The City Council is the highest level of decision-making authority for the City that can, by passing a resolution prior to the end of the fiscal year, commit fund balance. Once passed, the limitation imposed by the resolution remains in place until a similar action is taken (the passing of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The City Council may assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally exist only temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential either to remove or revise a commitment.

Amounts that do not fall into the nonspendable, restricted, committed, or assigned categories of fund balance are reported as unassigned. This is the residual classification for amounts in the General Fund and represents fund balance that has not been assigned to other funds and has not been restricted, committed, or assigned to specific purposes in the General Fund. In other governmental funds, only negative unassigned amounts are reported, if any, and represent expenditures incurred for specific purposes exceeding the amounts previously restricted, committed, or assigned to those purposes.

# Note 1 – Significant Accounting Policies (Continued)

#### Property Tax Revenue

Property taxes are levied and become an enforceable lien on each July 1; the tax is based on the taxable valuation of property as of the preceding December 31. Summer taxes are due on the first business day of September. Penalties and interest are assessed on late summer tax payments from approximately September 1 through the end of February. Winter taxes are due on the third Monday of February. Penalties and interest are assessed on late winter tax payments from approximately mid-February to the end of February. Delinquent real and personal property taxes are turned over to the county on March 1.

#### **Pension**

The City offers defined benefit pension benefits to its employees. The City records a net pension liability for the difference between the total pension liability calculated by the actuary and the pension plan's fiduciary net position. For the purpose of measuring the net position liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net positions have been determined on the same basis as they are reported by the pension plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## Other Postemployment Benefit Costs

The City offers retiree health care benefits to retirees. The City records a net OPEB liability for the difference between the total OPEB liability calculated by the actuary and the OPEB plan's fiduciary net position. For the purpose of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the OPEB plan and additions to/deductions from the OPEB plan's fiduciary net position have been determined on the same basis as they are reported by the OPEB plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## Compensated Absences (Vacation and Sick Leave)

It is the City's policy to permit employees to accumulated earned but unused sick and vacation pay benefits. Most annual leave and sick pay related to governmental activities and the ice arena is accrued when incurred in the internal service fund. Annual leave and sick pay related to the Water and Sewer Fund is accrued when incurred in that fund.

## Proprietary Funds Operating Classification

Proprietary funds distinguish operating revenue and expenses from nonoperating items. Operating revenue and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of proprietary funds is charges to customers for sales or services. The Water and Sewer Fund also recognizes as operating revenue the

## Note 1 – Significant Accounting Policies (Continued)

portion of tap fees intended to cover the cost of connecting new customers to the system. Operating expenses for these funds include the cost of sales or services and administrative expenses and may include depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

## <u>Use of Estimates</u>

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

## Note 2 - Stewardship, Compliance, and Accountability

#### **Budgetary Information**

The City is subject to the budgetary control requirements of the Uniform Budgeting Act (P.A. 621 of 1978, as amended). The annual budget is prepared by the city manager and adopted by the City Council; subsequent amendments are approved by the City Council. Unexpended appropriations lapse at year end; encumbrances are not included as expenditures. The amount of encumbrances outstanding at June 30, 2022 has not been calculated.

The budget has been prepared in accordance with accounting principles generally accepted in the United States of America, except that interfund reimbursements are budgeted as transfers. The budgetary comparison schedules (General Fund and major special revenue funds) are presented on the same basis of accounting used in preparing the adopted budget.

The budget has been adopted on an activity basis (i.e. City Council, city manager, etc); expenditures at this level in excess of amounts budgeted are a violation of Michigan law. A comparison of actual results adopted by the City Council is included in the required supplemental information.

## Excess of Expenditures Over Appropriations in Budgeted Funds

The City did not incur expenditures in excess of appropriations in the current fiscal year.

## Construction Code Fees

The City oversees building construction in accordance with the State's Construction Code Act, including inspection of building construction and renovation to ensure compliance with the building codes. The City charges fees for these services. The law requires that collection of these fees be used only for construction code costs, including an allocation of estimated overhead costs. A summary of the current year activity and the cumulative surplus or shortfall generated since January 1, 2000 is as follows:

# Note 2 -Stewardship, Compliance, and Accountability (Continued)

| Cumulative shortfall at July 1, 2021  | \$<br>(1,988,356) |
|---------------------------------------|-------------------|
| Current year permit revenue           | 359,985           |
| Related expenditures                  | 634,145           |
| Current year shortfall                | (274,160)         |
| Cumulative shortfall at June 30, 2022 | \$<br>(2,262,516) |

#### Note 3 -Deposits and Investments

Michigan Compiled Laws Section 129.91 (Public Act 20 of 1943, as amended) authorizes local governmental units to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loans associations that have offices in Michigan. The law also allows investments outside the State of Michigan when fully insured. The local unit is allowed to invest in bonds, securities, and other agreements; bankers' acceptances of United States banks; commercial paper rated within the two highest classifications that mature no more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions that are rated as investment grade; and mutual funds composed of investment vehicles that are legal for direct investment by local units of government in Michigan.

The pension trust fund is also authorized by Michigan Public Act 314 of 1965, as amended, to invest in certain reverse repurchase agreements, stocks, diversified investment companies, annuity investment contracts, real estate leased to public entities, mortgages, real estate (if the trust fund's assets exceed \$250 million), debt or equity of certain small businesses, certain state and local government obligations, and certain other specified investment vehicles.

The City has designated one bank for the deposit of its funds. The investment policy adopted by the board in accordance with Public Act 196 of 1997 has authorized investment in accordance 20 of 1943, as amended. The City's deposits and investments are in accordance with statutory authority.

The City's cash and investments are subject to several types of risk, which are examined in more detail below:

## Custodial Credit Risk of Bank Deposits

Custodial credit risk is the risk that, in the event of a bank failure, the City's deposits may not be returned to it. The City does not have a deposit policy for custodial credit risk. At year end, the City and Downtown Development Authority had \$12,411,179 and \$324,577, respectively, of bank deposits that were uninsured and uncollaterialized. The City believes that, due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the City evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

# Note 3 -Deposits and Investments (Continued)

#### Interest Rate Risk

Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The City's investment policy does not restrict investment maturities other than commercial paper, which can only be purchased with a 270-day maturity.

At year end, the City had the following investments:

|  |      |            | Weighted<br>Avg Maturity |
|--|------|------------|--------------------------|
| Investment                                 |      | Fair Value | (Years)                  |
| Corporate bonds                            | - \$ | 2,822,955  | 8.29                     |
| Mutual funds - Fixed income securities     |      | 1,711,871  | 5.35                     |
| Mortgage-backed securities                 |      | 239,916    | 18.86                    |
| U.S. Treasury bonds                        |      | 1,693,893  | 9.73                     |
| Municipal bonds                            |      | 32,001     | 19.50                    |
| U.S. government agency securities          |      | 787,320    | 17.99                    |
| Oakland County Local Govt. Investment Pool |      | 1,069,207  | 1.20                     |
| Total                                      | \$   | 8,357,163  |                          |

## **Credit Risk**

State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The City has no investment policy that would further limit its investment choices. As of June 30, 2022, the credit quality ratings of debt securities are as follows:

|  |    |            |           | Rating       |
|--|----|------------|-----------|--------------|
| Investment                                 | _  | Fair Value | Rating    | Organization |

## Fair Value Measurements

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are significantl other observable inputs, and Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using net asset value per share (NAV) (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below.

# Note 3 -Deposits and Investments (Continued)

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The City's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The City has the following recurring fair value measurements as of June 30, 2022:

|                                   | Assets Measured at Carrying Value on a Recurring Basis |           |           |            |           |          |               |            |  |  |

| Other Equity                      |  | -         |           | 6,990      |           | -        |               | 6,990      |  |  |
| Stpcls                            | 5,6  | 517,110   |           | -          |           | -        |               | 5,617,110  |  |  |
| Total Investments by              |  |           |           |            |           |          |               |            |  |  |
| Fair Value Level                  | \$ 12,3  | 353,602   | \$        | 5,561,534  | \$        | -        | \$            | 17,915,136 |  |  |

Debt and equity securities classified in Level 1 are valued using prices quoted in active markets for those securities.

The fair value of certain assets at June 30, 2022 was determined primarily based on Level 2 inputs. The City estimates the fair value of these investments using other inputs, such as interest rates and yield curves, that are observable at commonly quoted intervals.

The valuation method for investments measured at net asset value per share (or its equivalent) is presented on the table below.

## Note 3 -Deposits and Investments (Continued)

#### Investments in Entities that Calculated Net Asset Value per Share

The City holds shares or interests in investment companies where the fair value of the investments is measured on a recurring basis using net asset value per share (or its equivalent) of the investment companies as a practical expedient.

At June 30, 2022, the fair value, unfunded commitments, and redemption rules of those investments are as follows:

|                             |      |               |     |          | Redemption    |               |
|-----------------------------|------|---------------|-----|----------|---------------|---------------|
|                             | Ider | ntical Assets | Un  | funded   | Frequency, if | Redemption    |
|                             | Car  | rying Value   | Com | mitments | Eligible      | Notice Period |
| Oakland County Local        |      |               |     |          |               |               |
| Government Investment Pool  | \$   | 860,623       | \$  | -        | None          | None          |
| MERS Total Market Portfolio |      | 6,680,695     |     | -        | None          | None          |

The Oakland County Local Government Investment Pool (LGIP) is not registered with the SEC and does not issue a separate report. The pool does not meet the requirements under GASB 79 to report its value for financial reporting purposes at amortized costs. Accordingly, the investment is reported at fair value. The fair value of the position in the pool is not the same as the value of the pool shares because the pool redeems shares at \$1 per share, regardless of current fair value.

The MERS Total Market Portfolio is a fully diversified portfolio combining traditional stocks and bonds with alternative asset classes, including real estate, private equity, and commodities. The objective is to provide current income and capital appreciation while minimizing the volatility of the capital markets. The Municipal Employees' Retirement System (MERS) manages the asset allocation and monitors the underlying investment managers of the MERS Total Market Portfolio.

# Note 4 - Capital Assets

Capital asset activity of the City's governmental and business-type activities was as follows:

## Note 5-Interfund Receivables, Payables, and Transfers

The General Fund has loaned \$120,000 to the Sidewalk Fund, a nonmajor governmental fund, for cash flow purposes.

Interfund transfers reported in the fund financial statements are composed of the following:

| Paying Fund (Transfer Out)  | Receiving Fund (Transfer In) | _  | Amount  |
|-----------------------------|------------------------------|----|---------|
| General Fund                | Nonmajor governmental funds  | \$ | 755,000 |
| Major Streets Fund          | Local Streets Fund           |    | 180,000 |
| Nonmajor governmental funds | General Fund                 |    | 38,000  |
|                             |                              | \$ | 973,000 |

The transfer from the General Fund to the Recreation Revolving Fund (nonmajor governmental fund) was to fund operating expenses during the year. The transfer from the Major Streets Fund to the Local Streets Fund represents the sharing of gas and weight tax revenue in accordance with Act 51. The transfer from the General Fund to the Sidewalk Fund was to cover initial costs of the sidewalk projects.

## Note 6-Long-term Debt

Long-term debt activity for the year ended June 30, 2022 can be summarized as follows:

## **Governmental Activities**

|                          | Beginning     |           |                 | Ending  | Due within |

## **General Obligations Bonds and Contracts**

The City issues general obligation bonds to provide for the acquisition and construction of major capital facilities. General obligations have been issued for the business-type activities. General obligation bonds are direct obligations and pledge the full faith and credit of the City. County contractual agreements are also general obligations of the City.

## **County Contractual Obligations**

The above contractual obligations to Oakland County, Michigan, are the result of the issuance of bonds by the County on the City's behalf. The City has pledged substantially all revenue of the Water and Sewer Fund, net of operating expenses, to repay obligations. Proceeds from the bonds provided financing for the construction of the George G. Kuhn Drain. The remaining principal on the bonds total \$ 986,951.

# <u>CITY OF BERKLEY</u> <u>Notes to Financial Statements</u> <u>June 30, 2022</u>

# Note 6-Long-term Debt (Continued)

## Other Long-term Liabilities

Compensated absences attributable to the governmental activities will be liquidated primarily by the Fringe Benefits internal service fund. That fund will finance the payment of those claims by charging the other funds based on management's assessment of the relative insurance risk that should be assumed by individual funds. The net pension liability and the net OPEB liability will be liquidated from the funds from which the individual employee's salaries are paid, generally the General Fund and the Water and Sewer Fund.

# Debt Service Requirements to Maturity

Annual debt service requirements to maturity for the above bonds and note obligations are as follows:

## Note7-Risk Management

The City is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers'compensation), as well as medical benefits provided to employees. The City has purchased commercial insurance for health and workers' compensation claims and participates in the Michigan Municipal Liability and Property Pool for claims related to property liability and errors and omissions. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

The Michigan Municipal League risk pool program operates as a common risk-sharing management program for local units of government in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

#### Note 8-Pension Plans

#### **Plan Description**

#### General Employees' Defined Benefit Pension Plan

The City participates in an agent multiple-employer defined benefit pension plan administered by the Municipal Employees Retirement System of Michigan that covers substantially all employees of the City's merit system and all employees of the department of public works (the "General Employees' Defined Benefit Pension Plan"). MERS was established as a statewide public employee pension plan by the Michigan Legislature under PA 135 of 1945 and is administered by a nine-member retirement board. MERS issues a publicly available financial report, which includes the financial statements and required supplemental information of this defined benefit plan. This report can be obtained at <u>www.mersofmich.com</u> or in writing to MERS at 1134 Municipal Way, Lansing, MI 48917.

#### Public Safety Pension Plan

The City also administers the City of Berkley Public Safety Pension System (the "Public Safety Pension Plan"). This single employer defined benefit pension system that covers all public safety officers of the City, including the chief. This pension system is provided by State of Michigan, PA 345 of 1937, as amended. The voters of the City approved this type of pension system in April 1965.

The system is governed by a five-member board. The composition of this board is made up of one public safety command officer and one public safety officer. Each is voted onto the board by the members of their respective bargaining units. The law also requires that the city treasurer have a seat on the board. The mayor appoints the final two members of the board with City Council approval.

Benefit terms have been established by contractual agreements and PA 345 of 1937, as amended. The financial statements of the plan are included in these financial statements as a pension fiduciary trust fund. A separate stand-alone financial report is not issued.

#### **Benefits Provided**

## General Employees' Defined Benefit Pension Plan

The General Employees' Defined Benefit Pension Plan provides certain retirement, disability, and death benefits to plan members and beneficiaries. A member must meet minimum employment and age requirements to vest and obtain a pension benefit. An employee from any group who leaves service may withdraw his or her contributions plus any accumulated interest and forfeit his or her pension benefit. The City is a Public Act 88 of 1961 city.

# Note 8-Pension Plans (continued)

## Service or Deferred Retirement – Union Members Hired in Public Works Prior to July 1, 2004

Retirement benefits for members are calculated as 2.50 percent of the member's best 3 consecutive years of compensation while employed with the City. This sum is then multiplied by the number of years of service to obtain a pension benefit. The maximum benefit allowed is 80 percent of final average compensation. The member must be age 55 with 15 years of service, be age 60 with 10 years of service, or have a total of 25 years of service to obtain a pension benefit. This closed group does not contribute toward its pension benefit. These is a 10 year vesting requirement for this group. Compensation is defined as all wages, except overtime, uniform allowance, education pay, and license pay. Severance at retirement may or may not be included in compensation. If severance is included, sick leave payment will not be part of compensation.

Service or Deferred Retirement – Union Members Hired in Public Works on or after July 1, 2004

Retirement benefits for members are calculated as 2.50 percent of the member's best 3 consecutive years of compensation while employed with the City. This sum is then multiplied by the number of years of service to obtain a pension benefit. The maximum benefit allowed is 80 percent of final average compensation. The member must be age 55 with 15 years of service, be age 60 with 10 years of service, or have a total of 25 years of service to obtain a pension benefit. These is a 10 year vesting requirement for this group. Compensation is defined as all wages, except overtime, uniform allowance, education pay, and license pay. Severance at retirement may or may not be included in compensation. If severance is included, sick leave payment will not be part of compensation.

## Service or Deferred Retirement – Nonunion Members Hired Prior to July 1, 2008

Retirement benefits for members are calculated as 2.50 percent of the member's best 3 consecutive years of compensation while employed with the City. This sum is then multiplied by the number of years of service to obtain a pension benefit. The maximum benefit allowed is 80 percent of final average compensation. The member must be age 55 with 15 years of service, be age 60 with 10 years of service, or have a total of 25 years of service to obtain a pension benefit. This closed group pays 4 percent toward its pension benefit. These is a 6-year vesting requirement for this group. Compensation is defined as all wages, including earned overtime. Severance at retirement may or may not be included in compensation. If severance is included, sick leave payment will not be part of compensation.

#### Service or Deferred Retirement – Nonunion Members Hired on or after July 1, 2008

Retirement benefits for members are calculated as 2.25 percent of the member's best 3 consecutive years of compensation while employed with the City. This sum is then multiplied by the number of years of service to obtain a pension benefit. The maximum

# <u>CITY OF BERKLEY</u> <u>Notes to Financial Statements</u> <u>June 30, 2022</u>

## Note 8-Pension Plans (continued)

benefit allowed is 80 percent of final average compensation. The member must be age 55 with 25 years of service, be age 60 with 10 years of service to obtain a pension benefit. This closed group pays 4 percent toward its pension benefit. These is a 10-year vesting requirement for this group. Compensation is defined as all wages, including overtime. Severance at retirement may or may not be included in compensation. If severance is included, sick leave payment will not be part of compensation.

#### Public Safety Pension Plan

The Public Safety Pension Plan provides retirement, disability, duty, and nonduty death benefits. A member must have 25 or more years of service or be age 60, regardless of service. Military or prior employment and other public employment or generic credited service may be purchased by a member. A deferred retirement maybe obtained after 10 years of service. Straight-life benefits only are paid under a deferred retirement at the date retirement would have occurred had the member remained employed.

## Service or Deferred Retirement – Members Hired Prior to July 1, 2013

Retirement benefits for members are calculated as 2.8 percent of the member's best 3 consecutive years of the last 10 years of a member's average final compensation for the first 25 years of service, plus 1 percent of average final compensation times years of service in excess of 25 years. The maximum benefit allowed is 85 percent of base wages. Base wages are defined as the final rate of pay at retirement, multiplied by 2,080 hours, multiplied by 85 percent.

## Service or Deferred Retirement – Members Hired on or after July 1, 2013

Retirement benefits for members are calculated as 2.5 percent of the member's best 3 consecutive years of the last 10 years of a member's average final compensation for the first 25 years of service, plus 1 percent of average final compensation times years of service in excess of 25 years. The maximum benefit allowed is 85 percent of base wages. Base wages are defined as the final rate of pay at retirement, multiplied by 2,080 hours, multiplied by 85 percent.

## Death after Retirement – Survivor Pension

The benefit is payable to a surviving spouse, if any, upon the death of a retired member who was receiving a straight-life pension that was effective July 1, 1975 or later. The spouse's pension equals 60 percent of the straight-life pension the decreased retiree was receiving. Deferred retirees are ineligible for this benefit.

#### Nonduty Death-in-service Survivor's Pension

The benefit is payable to a surviving spouse upon the death of a member with 20 or more years of service. Accrued straight-life pension is actuarially reduced in accordance with Option 1 election.

## Note 8-Pension Plans (continued)

#### Duty Death-in-service Survivor's Pension

The benefit is payable upon the expiration of workers' compensation to the survivors of a member who died in the line of duty. The benefit is the same amount that was paid by workers' compensation.

#### Nonduty Disability

The benefit is payable upon the total and permanent disability of a member with five or more years of service. To age 55, it is equal to 1.5 percent of average final compensation times years of service. At age 55, it is equal to the same benefit as a service retirement pension.

#### Duty Disability

The benefit is payable upon the total and permanent disability of a member in the line of duty. To age 55, the benefit is payable at 50 percent of average final compensation. At age 55, it is payable at the same benefit as a service retirement pension.

#### Annuity Withdrawls

Accumulated member contributions may be withdrawn at retirement with an actuarial reduction in the pension that would otherwise be payable.

#### **Employees Covered by Benefit Terms**

The following members were covered by the benefit terms:

## Note 8-Pension Plans (Continued)

## Contributions

## General Employees' Defined Benefit Pension Plan

Article 9, Section 24 of the State of Michigan constitution requires public employers to make pension contributions in accordance with an actuarial valuation. Accordingly, MERS retains an independent actuary to determine the annual contribution. The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by the MERS retirement board. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The employer may establish contribution rates to be paid by its covered employees.

For the year ended June 30, 2022, the average active employee contribution rate was 0.0 percent of annual pay for a union public works member hired prior to July 1, 2004; 4.0 percent of annual pay for a union public works member hired on or after July 1, 2004; and 4.0 percent for all nonunion eligible employees. The City's average contribution rate for a union public works employee was 37.08 percent of annual payroll and, for a nonunion eligible employee, it was 57.94 percent of annual payroll. Total contributions during the City's fiscal year were \$1,103,219.

## Public Safety Pension Plan

Article 9, Section 24 of the State of Michigan constitution requires that financial benefits arising on account of employee service rendered in each year be funded during that year. Accordingly, the pension board retains an independent actuary to determine the annual contribution. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year with an additional amount to finance any unfunded accrued liability. Contribution requirements of plan members are established and may be amended by the board in accordance with the city charter, union contracts, and plan provisions. For the year ended June 30, 2022, the average active member contribution rate was 0.0 percent of annual pay, and the City's average contribution rate was 53.69 percent of annual payroll.

## Net Pension Liability

The City chooses a date for each pension plan to measure its net pension liability. This is based on the measurement date of each pension plan, which may be based on a comprehensive valuation as of that date or based on an earlier valuation that has used procedures to roll the information forward to the measurement date.

# Note 8 – Pension Plans (Continued)

## Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2022, The City recognized pension expense of \$1,277,308 related to the General Employees' Defined Benefit Pension Plan and \$1,469,116 related to the Public Safety Pension Plan for a total of \$2,746,424.

At June 30, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  | General Employees'           |           |            |             |    |              |            |              |  |
|--|------------------------------|-----------|------------|-------------|----|--------------|------------|--------------|--|

| Change in assumptions  |                              | 381,583   |            | -           |    | -            |            | -            |  |
| Employer contributions to the plan subsequent                                    |                              |           |            |             |    |              |            |              |  |
| to the measurement date  |                              | 695,065   |            | -           |    | -            |            | -            |  |
| Total  | \$                           | 2,354,381 | \$         | 876,643     | \$ | 75,113       | \$         | 1,602,841    |  |

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows. These amounts are exclusive of the employer contributions to the plan made subsequent to the measurement date, which will impact the net pension liability in fiscal year 2023, rather than pension expense.

|              |    | General       |                 |

| 2024         |    | 171,537       | (481,915)       |
| 2025         |    | (98,335)      | (363,802)       |
| 2026         |    | 154,687       | (173,343)       |

## Note 8 – Pension Plans (Continued)

## Actuarial Assumptions

The total pension liability in each actuarial valuation was determined using the following actuarial assumptions applied to all periods included in the measurement:

|                           | General Employees' |               |
|---------------------------|--------------------|---------------|
|                           | Defined Benefit    | Public Safety |
|                           | Pension Plan       | Pension Plan  |
| Inflation                 | 2.50%              | 1.75%         |
| Salary increases          | 3.00%              | 3.50%-7.50%   |
| Investment rate of return | 7.25%              | 7.00%         |
| Mortality rates           | Pub-2010           | RP-2014       |

General Employees' Defined Benefit Pension Plan

Salary increase assumptions are based on an age-related scale to reflect merit, longevity, and promotional pay increases.

The investment rate of return presented above is gross of pension plan investment expense, including inflation.

Mortality rates were based on a blend of the Pub-2010 Juvenile Mortality Tables, the PubG-2010 Employee Mortality Tables, and the PubG-2010 Healthy Retiree Tables.

The actuarial assumptions used in the December 31, 2021 actuarial valuation were based on the results of an actuarial experience study for the period from January 1, 2014 through December 31, 2018.

#### Public Safety Pension Plan

Salary increase assumptions are based on an age-related scale to reflect merit, longevity, and promotional pay increases, including inflation.

The investment rate of return presented above is net of plan investment expense, including inflation.

Mortality rates were based on the RP-2014 Employee Mortality Table, the RP-2014 Health Annuitant Mortality Table, and the RP-2014 Disabled Annuitant Mortality Table, each adjusted for mortality improvements to 2025 using projection scale MP-2018 from 2006.

## Discount Rate

As shown below, the discount rate used to measure the total pension liability was determined after considering a projection of the cash flows to determine whether the future contributions (made at the current contribution rates) will be sufficient to allow the pension plans' fiduciary net position to make all projected future benefit payments of current active and inactive employees.

#### Note 8 – Pension Plans (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

|   | General Employees' |               |  |  |
|---|--------------------|---------------|--|--|
|   | Defined Benefit    | Public Safety |  |  |
|   | Pension Plan       | Pension Plan  |  |  |
| Assumed investment rate of return                     | 7.00%              | 7.00%         |  |  |
| Are contributions expected to be sufficient to allow  |                    |               |  |  |
| fiduciary net position to pay future benefits         | Yes                | Yes           |  |  |
| Discount rate used to measure total pension liability | 7.25%              | 7.00%         |  |  |

#### Investment Rate of Return

#### General Employees' Defined Benefit Pension Plan

Best estimates of arithmetic real rates of return as of the December 31, 2021 measurement date for each major asset class included in the pension plan's target asset allocation, as disclosed in the investment footnote, are summarized in the following table:

|                     |            | Long-term      |
|---------------------|------------|----------------|
|                     | Target     | Expected Real  |
| Asset Class         | Allocation | Rate of Return |
| Global Equity       | 60%        | 4.50%          |
| Global Fixed Income | 20%        | 2.00%          |
| Private Investments | 20%        | 7.00%          |

#### **Public Safety Pension Plan**

Best estimates of arithmetic real rates of return as of the June 30, 2022 measurement date for each major asset class included in the pension plan's target asset allocation, as disclosed in the investment footnote, are summarized in the following table:

|   |            | Long-term      |
|---|------------|----------------|
|   | Target     | Expected Real  |
| Asset Class                             | Allocation | Rate of Return |
| Large-cap equity                        | 27.50%     | 7.25%          |
| Small-Mid-cap equity                    | 14.50%     | 7.50%          |
| International equity                    | 20.50%     | 6.75%          |
| Domestic fixed income                   | 30.00%     | 2.00%          |
| Treasury inflation-protected securities | 4.50%      | 2.00%          |
| High-yield bonds                        | 2.50%      | 3.10%          |
| T-Bills                                 | 0.50%      | 1.60%          |
|   |            |                |

#### Note 8 – Pension Plans (Continued)

#### Sensitivity of the Net Pension Liability to Changes in the Discount Rate

#### General Employees' Defined Benefit Pension Plan

The following presents the net pension liability of the City, calculated using the discount rate of 7.25 percent, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher that the current rate:

|                       | Current |             |    |               |    |             |  |

#### Pension Plan Fiduciary Net Position

#### General Employees' Defined Benefit Pension Plan

Detailed information about the General Employees'' Defined Pension Plan's fiduciary net position is available in the separately issued financial report found at <u>www.mersofmich.com</u>. For the purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the plan's fiduciary net position and additions to/deductions from fiduciary net position have been determined on the same basis as they are reported by the plan. The plan uses the economic resources measurement focus and the full accrual basis of accounting. Investments are stated at fair value. Contribution revenue is recorded as contributions are due, pursuant to legal requirements. Benefit payments and refunds of employee contributions are recognized as expense when due and payable in accordance with the benefit terms.

#### Note 8-Pension Plans (Continued)

#### Public Safety Pension Plan

For the purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the plan's fiduciary net position and additions to/deductions from fiduciary net position have been determined on the same basis as they are reported by the plan. The plan uses the economic resources measurement focus on the full accrual basis of accounting. Investments are stated at fair value. Contribution revenue is recorded as contributions are due, pursuant to legal requirements. Benefit payments and refunds of employee contributions are recognized as expense when due and payable in accordance with the benefit terms.

#### Investment Policy

The Public Safety Pension Plan's policy in regard to the allocation of invested assets is established and may be amended by the pension board by a majority vote of its members. It is the policy of the pension board to pursue an investment strategy that manages risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of case equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans.

#### Pension Plan Reserves

In accordance with Public Act 345, as amended, and the actions of the City Council and Public Safety Retirement Board, the following reserves are required to be set aside within the Public Safety pension plan:

The retiree reserve is to be computed annually by the actuary as the present value of estimated benefit payments for all current retirees. The amounts reserved may be used solely to pay monthly retiree benefit payments.

The employee reserve is credited as employee contributions are received through the year; the plan maintains a record of the amount contributed by each employee and credits interest annually at a rate of 2.0 percent. For any employee who terminates before vesting in the pension plan, his or her balance is returned to him or her; for those who stay until retirement, the balance is transferred into the retiree reserve.

The employer reserve account is used for the residual net position balance in the pension plan after funding the above two reserves and receives all investment income (or loss) earned within the fiscal year.

#### Note 8 – Pension Plans (Continued)

The balances of the reserve accounts at June 30, 2022 are as follows:

|                  | Required |            |    | Amount     |
|------------------|----------|------------|----|------------|
|                  | _        | Reserve    |    | Funded     |
| Retiree Reserve  | \$       | 18,266,685 | \$ | 18,266,685 |
| Employee Reserve |          | 318,198    |    | 318,198    |
| Employer Reserve |          | -          |    | 487,672    |
|                  | \$       | 18,584,883 | \$ | 19,072,555 |

#### Note 9 – Other Postemployment Benefit Plan

#### Plan Description

The City has elected to provide postemployment health benefits and life insurance benefits to certain retirees and their beneficiaries in accordance with current employment labor contracts for union members, and the City Council adopted Merit System of Personnel Management for nonunion and court retirees.

This is a single-employer defined benefit plan administered by the City. The plan does not issue a separate stand-alone financial statement. Administrative costs are paid by the plan through employer contributions. The assets of the plan are being held in the MERS Retiree Health Funding Vehicle.

#### **Benefits Provided**

The plan provides health care, prescription drug, vision, and life insurance benefits for eligible retirees. Members are subject to age and service requirements in order to receive benefits. Member coverage is dependent upon the hire date and employee group of the member. Benefits are provided through a third-party insurer, and the full cost of the benefits is covered by the plan.

#### **Employees Covered by Benefit Terms**

The following members were covered by the benefit terms:

| Date of member count  | June 30, 2021 |
|---|---------------|
| Inactive plan members or beneficiaries currently receiving bene | efits 94      |
| Active plan members   | <u>77</u>     |
| Total plan members  | 718           |

#### Note 9 – Other Postemployment Benefit Plan – (Continued)

#### Contributions

Retiree health care costs are paid by the City on a pay-as-you-go basis. The City has no obligation to make contributions in advance of when the insurance premiums are due for payment; however, the City does make discretionary contributions to the trust. For the fiscal year ended June 30, 2022, the City made payments for postemployment health benefit premiums of \$717,498.

#### Net OPEB Liability

The City has chosen to use the June 30 measurement date as its measurement date for the net OPEB liability. The June 30, 2022 fiscal year end reported net OPEB liability was determined using a measure of the total OPEB liability and the OPEB net position as of the June 30, 2020 measurement date. The June 30, 2022 total OPEB liability was determined by an actuarial valuation performed as of June 30, 2021, which used update procedures to roll forward the estimated liability to June 20, 2022.

Changes in the net OPEB liability during the measurement year were as follows:

|                                     | Increase (Decrease) |             |     |              |             |
|-------------------------------------|---------------------|-------------|-----|--------------|-------------|
|                                     |                     | Total OPEB  |     | Plan Net     | Net OPEB    |
| Changes in Net OPEB Liability       |                     | Liability   |     | Position     | Liability   |
|                                     |                     |             |     |              |             |
| Balance at July 1, 2021             | \$_                 | 17,953,275  | \$_ | 7,272,274 \$ | 10,681,001  |
| Changes for the year:               |                     |             |     |              |             |
| Service Cost                        |                     | 141,915     |     | -            | 141,915     |
| Interest                            |                     | 1,142,693   |     | -            | 1,142,693   |
| Differences between expected and    |                     |             |     |              |             |
| actual experience                   |                     | (4,482,016) |     | -            | (4,482,016) |
| Change in assumptions               |                     | 390,917     |     | -            | 390,917     |
| Contributions-Employer              |                     | -           |     | 738,812      | (738,812)   |
| Net Investment Income(loss)         |                     | -           |     | (612,996)    | 612,996     |
| Benefit Payments, including refunds | _                   | (888,684)   | _   | (717,395)    | (171,289)   |
| Net Changes                         | _                   | (3,695,175) | _   | (591,579)    | (3,103,596) |
|                                     | -                   |             |     |              |             |
| Balance at June 30, 2022            | \$_                 | 14,258,100  | \$  | 6,680,695 \$ | 7,577,405   |

The plan's fiduciary net position represents 46.86 percent of the total OPEB liability.

#### Note – 9 Other Postemployment Benefit Plan (Continued)

#### OPEB Expense and Deferred Outflows of Resources and deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2022, the City recognized an OPEB cost recovery of \$1,497,766.

At June 30, 2022, the City reported deferred outlfows of resources and deferred inflows of resources related to OPEB from the following resources:

|   |    | Deferred    | Deferred        |
|---|----|-------------|-----------------|
|   |    | Outflows of | Inflows of      |
|   | _  | Resources   | <br>Resources   |
| Net difference between projected and actual       | \$ | 264,870     | \$<br>-         |
| earnings on OPEB plan investments                 |    |             |                 |
| Difference between expected and actual experience |    | -           | 3,892,308       |
| Changes in assumptions                            | _  | 324,968     | <br>_           |
| Total   | \$ | 589,838     | \$<br>3,892,308 |

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Years Ending | g  |             |
|--------------|----|-------------|
| June 30      |    | Amount      |
| 2023         | \$ | (1,376,180) |
| 2024         |    | (985,133)   |
| 2025         |    | (1,007,620) |
| 2026         |    | 66,463      |

#### Actuarial Assumptions

The total OPEB liability in the June 30, 2022 actuarial valuation was determined using and inflation assumption of 3.00 percent; assumed salary increases (including inflation) of between 3.5 percent and 10.20 percent depending on seniority and merit; an investment rate of return (net investment expenses) of 6.5 percent; a health care cost trend rate of 8.25 percent, decreasing 0.50 percent of 0.75 percent per year to an ultimate rate of 3.50 percent; and the RP-2014 Employee, Healthy Annuitant, and Disabled Annuitant Mortality Tables adjusted for mortality improvements to 2025 using scale MP-2018 from 2006. These assumptions were applied to all periods included in the measurement.

#### Note – 9 Other Postemployment Benefit Plan (Continued)

#### Discount Rate

The discount rate used to measure the total OPEB liability was 6.50 percent. The projection of cash flows used to determine the discount rate assumed the City will continue to fund OPEB benefits on a pay as you go basis up to \$1.2 million per year. Benefit payments in excess of \$1.2 million in a given year would be paid from trust assets.

Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

#### Investment Rate of Return

For the year ended June 30, 2022, the annual money-weighted rate of return on investments, net of plan investment expense, was -3.35 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the targe asset allocation percentage and adding expected inflation. Best estimates of arithmetic real rates of return as of the June 30, 2021 measurement date for each major asset class included in the OPEB plan's targe asset allocation, as disclosed in the investment footnote, are summarized in the following tables:

|                     | Target     | Long Term Expected  |
|---------------------|------------|---------------------|
| Asset Class         | Allocation | Real Rate of Return |
| Global Equity       | 60.0%      | 4.95%               |
| Global Fixed Income | 20.0%      | 2.40%               |
| Private Investments | 20.0%      | 7.00%               |

#### Note – 9 Other Postemployment Benefit Plan (Continued)

#### Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the City, calculated using the discount rate of 6.50 percent, as well as what the City's net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

|                    | Current         |    |               |    |             |  |
|--------------------|-----------------|----|---------------|----|-------------|--|
|                    | 1% Decrease     |    | Discount Rate |    | 1% Increase |  |
|                    | <br>(5.50%)     |    | (6.50%)       |    | (7.50%)     |  |
|                    |                 |    |               |    |             |  |
| Net OPEB Liability | \$<br>9,108,696 | \$ | 7,577,405     | \$ | 6,282,160   |  |

#### Sensitivity of the Net OPEB Liability to Changes in the Health Care Cost Trent Rate

The following presents the net OPEB liability of the City, calculated using the health care cost trend rate of 8.25 percent, as well as what the City's net OPEB liability would be if it were calculated using a health care cost trend rate that is 1 percentage point higher than the current rate:

|                    |    |            | Healthcare Cost |                 |
|--------------------|----|------------|-----------------|-----------------|
|                    | 1  | % Decrease | <br>Trend Rate  | <br>1% Increase |
| Net OPEB Liability | \$ | 6,141,901  | \$<br>7,577,405 | \$<br>9,246,936 |

#### **OPEB Plan Fiduciary Net Position**

Detailed information about the plan's fiduciary net position is not available in the separately issued financial report. For the purpose of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the plan's fiduciary net position and additions to/deductions from fiduciary net position have been determined on the same basis as they are reported by the plan. The plan uses the economic resources measurement focus and the full accrual basis of accounting. Investments are stated at fair value. Contribution revenue of employee contributions are recognized as expense when due and payable in accordance with the benefit terms.

#### <u>CITY OF BERKLEY</u> <u>Notes to Financial Statements</u> <u>June 30, 2022</u>

#### Note 10 – Joint Ventures

#### Southeastern Oakland County Water Authority

The City is a member of the Southeastern Oakland County Water Authority (the "Water Authority"), which provides a water supply system serving 11 members and 2 nonmembers municipalities in Oakland County. The City appoints one member of the joint venture's governing board, which approves the annual budget. The participating communities provide funding for its operations. During the year ended June 30, 2022, the City expensed \$866,676 of payments made to the Water Authority. The City has no explicit and measurable equity in the joint venture. The Southeastern Oakland County Water Authority's operations are financially independent of the City. The City is unaware of any circumstances that would cause an additional financial benefit or burden to the participating governments in the near future. Complete financial statements of the Southeastern Oakland County Water Authority can be obtained from the administrative offices at 3910 Webster Road, Royal Oak, MI 48073.

#### Southeastern Oakland County Resource Recovery Authority

The City is a member of the Southeastern Oakland County Resource Recovery Authority (the "Resource Recovery Authority"), which collects, processes, and disposes of the municipal solid waste, yard waste, and recyclables accumulated within the City. The Resource Recovery Authority provides services to 12 member municipalities in Oakland County. The City appoints one member of the joint venture's governing board, which approves the annual budget. The participating communities provide funding for its operations. During the year ended June 30, 2022, the City expensed \$1,162,711 of payments made to the Resource Recovery Authority. The City has no explicit and measurable equity interests in the joint venture. The Southeastern Oakland County Resource Recovery Authority can be obtained from the administrative offices at 3910 W. Webster Road, Royal Oak, MI 48073.

#### Note 11 – Upcoming Accounting Pronouncements

In May 2020, the Governmental Accounting Standards Board issued Statement No. 96, *Subscription-Based Information Technology Arrangements (SBITAs)*, which provides accounting and financial reporting for SBITAs by governments. This statement requires a government to recognize a subscription liability and an intangible right-to-use subscription asset for SBITAs. The City is currently evaluating the impact this standard will have on the financial statements, if any, when adopted. This statement is effective for the City's financial statements beginning with the fiscal year ending June 30, 2023.

In June 2022, the Governmental Accounting Standards Board issued Statement No. 101, *Compensated Absences*, which updates the recognition and measurement guidance for compensated absences as well as the disclosure requirements. This statement requires that the compensated absence liability be recognized for leave that has not been used and leave that has been used but not yet paid in cash or settled through noncash means. This statement is effective for the City's financial statements beginning with the fiscal year ending June 30, 2025.

#### <u>CITY OF BERKLEY</u> Notes to Required Supplementary Information June 30, 2022

**Budgetary Information** – Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all governmental funds except that fund balance appropriations and transfers are budgeted as either revenue or expenditures to balance the budget. All annual appropriations lapse at fiscal year end. During the fiscal year, the budget was amended in a legally permissible manner.

OTHER SUPPLEMENTARY INFORMATION

#### Special Revenue Funds

Special revenue funds are used to account for the proceeds of specific revenue courses that are restricted or committed to expenditure for specified purposes.

#### Community Development Block Grant

The Community Development Block Grant Fund accounts for federal grant funds received from the U.S. Department of Housing and Urban Development to assist economically disadvantaged areas within the community and those citizens who are also economically disadvantaged.

#### <u>Seniors' Program</u>

The Seniors' Program Fund accounts for all senior recreation revenue and expenses related to senior activities planned within the recreation department, including SMART senior transportation programming. User fees and nonprofit and corporate grants are the major funding sources of this fund.

#### Recreation Revolving

The Recreation Revolving Fund accounts for all revenue and expenditures associated with parks and recreation youth and adult recreation programs. This fund also accounts for all dream cruise revenue and expenditures for the City. User fees are the main revenue source for this fund.

#### Solid Waste Service

The Solid Waste Service Fund accounts for the activities of the City's sanitation system. Revenue in the fund is generated from a dedicated millage and charges to customers within the City for trash pickup.

#### Debt Service Funds

Debt service funds are used to record tax, interest, and other revenue for payment of interest, principal, and other expenditures on long-term debt.

#### Eleven Mile Road Project Debt Service

The Eleven Mile Road Project Debt Service Fund accounts for a 2006 voter-approved debt issue and supporting tax increase to finance the reconstruction of Eleven Mile Road within the City of Berkley. The bonds are issued in accordance with Michigan Public Act 279 of 1909, as amended.

#### Capital Project Funds

Capital project funds are used to record bond proceeds or other revenue and the disbursement of invoices specifically designated for acquiring land, buildings, and equipment; technology upgrades; and remodeling and repairs.

#### Court Projects

The Court Projects Fund accounts for capital activity of the district court building. In March 2006, the Berkley City Council approved an ordinance under Michigan Compiled Law Section 141.261, which allows for a specific fine to be levied by the district court on a civil infraction. The funds derived from these fines are to be utilized to provide for the renovation or expansion of the Berkley District Court facility, including furniture, fixtures, and necessary equipment. Beginning on July 1, 2015, the 45-A District Court was consolidated with the City of Royal Oak, Michigan's 44<sup>th</sup> District Court. Upon the dissolution of the 45-A District Court, the capital improvement funds are permissible to be transferred to the General Fund to be used pursuant to MCLA 141.262.

#### <u>Sidewalk</u>

The Sidewalk Fund will manage any special assessment sidewalk projects with the City. All future special assessment revenue will be collected here to offset the construction expenses of the sidewalk project. Engineering costs related to the project are budgeted in the Major Streets and Local Streets funds.

#### <u>Road Millage</u>

In November 2018, the Berkley voters approved a ballot proposal for capital improvement projects for road improvements. The ballot proposal approved up to 2 mills to be levied for capital improvement projects beginning with summer tax collection in July 2019. In addition to road improvements, the City will also be getting an updated PASER rating of road conditions that will help decide which roads are in the worst condition and will need to be repaired and/or replaced first.

# STATISTICAL SECTION

This part of the annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

The statistical section is organized into the following main categories:

# **Financial Trends**

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

# **Revenue Capacity**

These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.

# Debt Capacity

These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.

# Demographic and Economic Information

These schedules help the reader understand the environment within which the government's financial activities take place.

# **Operating Information**

These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

Note: Under Michigan law, the revenue base is referred to as "Taxable Value". This amount represents Assessed limited for each property by the lower of 5% or inflation.

Taxes levied in a particular "tax year" become revenue of the subsequent fiscal year.

Note: Michigan law restricts the maximum millage that may be levied by the City without a vote of our residents, as follows:

| General operating    | 8.0696 |
|----------------------|--------|
| Public safety        | 1.6404 |
| Sanitation           | 1.6404 |
| Community promotions | 0.0749 |

The public safety pension and debt millages noted in the table above are limited by law to the millage required to cover estimated eligible expenditures.

Source: Percentages obtained from Municipal Advisory Council of Michigan

The percentage of overlapping bonded debt applicable to each governmental unit is estimated using the taxable valuation of assessed property. Applicable percentages were estimated by determining the portion of each governmental unit's taxable property located within the boundaries of the City of Berkley and dividing it by that governmental unit's total taxable value.
